

PROJECT REPORT

CONTINUING EDUCATION (TRAINING PROGRAMME) FOR TECHNICAL PERSONNEL IN PULP AND PAPER INDUSTRY

(Period of Project = 36 months)

Submitted by

Chemical Recovery & Biorefinery Division

**Central Pulp & Paper Research Institute
Saharanpur, (U.P.), India**

I. Project Particulars

1	Project Title	:	Continuing Education (Training Programme) for Technical Personnel in Pulp And Paper Industry
2	Executing Agency	:	RSC-DCPPAI
3	Participating Agency		Various Mill Associations
4	Total Project Cost (Rs. in Lakhs)	:	69
5	RSC-DCPPAI Funds Received (Rs.in Lakhs)		69
6	Project Duration , Months (Years)	:	36 (03 Years)
7	Date of Start of the Project		

II. Objective of the Project

To impart training to shop floor and middle level technical manpower to improve the technical skill by way of providing information on the latest developments in the various areas of pulp and paper making process.

III. Industrial Relevance / Application of the Project

- Continuing education has a routine in developed countries as it contributes significantly to the improvement of individual skills to deal with the new challenges at the shop floor.
- CPPRI is providing this service to the industry for continuing education of the mill personnel.
- Imparting training to shop floor and middle level technical manpower to improve the technical skill by way of providing information on the latest development in the various areas of pulp and paper making.

IV. Major Outcomes / Achievements / Highlights of the Project

12 offline training programme and 4 online programme were successfully organised. Over 500 technical personnel of Pulp, paper & Allied Industry were provided training in various areas of papermaking, which includes,

- Raw Material,
- Pulping & Bleaching,
- Wet End
- Papermaking,
- Chemical recovery
- Environment
- Energy

Following training programmes were organised

- RSC- DCPPIAI Web training program on “Chemi- thermo mechanical (CTMP) OR Bleached Chemi- Thermo- mechanical Pulping (BCTMP) process of indigenous Raw Materials for various End Uses” was organised on September 29, 2020 at CPPRI.
- RSC- DCCPPAI Webinar on “Indian Paper Industry- An Analysis” was organised on October 29 2020. Participants from various pulp, paper and allied industries, academia and R & D institutes attended the webinar.
- RSC- DCPPIAI Workshop on “Addressing Environmental Issues of Indian Pulp & Paper Mills” was organised on march 20, 2021 at CPPRI. Participants from various pulp, paper and allied industries, academia and R & D institutes attended the workshop.
- RSC- DCPPIAI training programme on “ Recent Developments in Coating, Surface Sizing and Printability of Paper and Paper Board” on May 2-3, 2019. Around 28 participants from various pulp and paper mills, academic, R&D institutes etc., attended the training programme.
- RSC- DCPPIAI Training programme on “Paper Based Food Grade Package Testing” on May 21, 2019 at Central Pulp & Paper Research Institute, Saharanpur. Around 18 participants from various pulp and paper mills, academic, R&D institutes etc., attended the training programme.
- RSC-DCPPAI Training programme on “Environmental Management in Pulp & Paper Industry” was organised on November 8-9, 2019 at Centre for Rural Development Technology (CRDT), IIT, New Delhi. Around 25 participants from various pulp and paper mills, academic, R&D institutes etc., attended the training programme.
- RSC- DCPPIAI Training programme on “Efficient Operation and Process Control in Chemical Recovery” on January 17-18, 2020 at Muzaffarnagar. Around 38 participants from various pulp and paper mills, academic, R&D institutes etc., attended the training programme.
